

Short biography

Adelene Song Ai Lian

BSc (UPM), MSc (Malaysia University of Science and Technology), PhD (UPM)

Dr Adelene Song's primary research interest is in Lactic Acid Bacteria (LAB) and Phage Therapy. Her current research is on the use of LAB as a delivery system for therapeutics and on phage endolysins as an alternative antimicrobial resource. She is also an EXCO member of the Malaysian Society for Microbiology (MSM) and the Malaysian Society for Lactic Acid Bacteria (MSLAB).
