

## Short biography

### **Intan Safinar Ismail**

BSc (Creighton University, USA), MSc (UPM), DPhil (Okayama University, Japan)

Associate Professor Dr Intan's primary research interest is in the field of natural products, focusing on the bioactive metabolites against inflammation of several organs such as brain and kidneys. Her current works on deciphering natural remedies against inflammation of metal-induced zebrafish and gastric-induced cells. She is a Fellow of Royal Society of Chemistry (FRSC) and Chemical Institute of Malaysia (ChM).
