**Contact no.** : \_\_\_\_\_

**Email** : \_\_\_\_\_

**Type of samples** : \_\_\_\_\_

NO.	SERVICES	SPECIFICATIONS	√	TOTAL SAMPLES	REMARK
1.	Flow cytometry	Cell cycle			
		Annexin V-FITC			
		Mitochondrial Membrane Potential			
		Immunophenotyping			

2.	Nutrigenomics	Antioxidant genes			
		Apoptotic genes (up-stream genes related to apoptotic pathway)			
		Diabetic genes			
		Alzheimer's disease pathway (human origin) (A $\beta$ production, degradation and transportation)			
		Alzheimer's disease pathway (rat origin)			
3.	Consultancy	Consultation on primer design, samples preparation, optimization, normalization and data interpretation
